

ODORGHOST®

MAKES ODORS VANISH

SAFETY DATA SHEET

MULTI-SURFACE USE, COMMERCIAL GRADE

1. IDENTIFICATION

OdorGhost Refresh

Scientifically designed to eliminate smoke molecules chemically based odors at their source. Smoke molecules and other strong odors get trapped deep into fabrics and other textiles. Other products attempt to cover up these odors allowing the odors to resurface. Refresh Odor Eliminator is chemically designed to penetrate the surface and attack the source of the odor to eliminate it for good. Safely treats cabinets, refrigerators, curtains and everywhere paints can't go. Scientifically designed to remove even the worst odors such as: Smoke odors (fires, cigarettes, cigars, pipes, cannabis, fireplace), Cooking odors (frying food odors, fish, burnt popcorn, spice related odors like garlic, bbq and cumin), Chemically based odors (electrical fires, incense, automotive exhaust).

Company: Smell Away Solutions LLC
7500 W 151st St, #23398, Overland Park, KS 66223, USA,
(913) 244-5752

Emergency Telephone Number: (800) 535-5053

Other Means of Identification

2. HAZARDS IDENTIFICATION

According to regulation 2012 OSHA Hazard Communication Standard: 29 CFR Part 1910.1200

Classification of the Product: No need for classification according to GHS criteria for this product.

Label Elements: This product does not require a hazard warning label in accordance with GHS criteria.

Hazards Not Otherwise Classified: None known in used according to instructions. Irritation may occur when in contact with eyes and skin.

3. COMPOSITION/INFORMATION ON INGREDIENTS

According to Regulation 1994 OSHA Hazard Communication Standard: 29 CFR Part 1910.1200

This product does not contain any components classified as hazardous under the referenced regulation.

4. FIRST AID MEASURES

Eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or Poison Control Center immediately if irritation persists.

Skin: Remove / take off immediately all contaminated clothing. Rinse skin with water / shower. Call a Poison Center or doctor / physician. Remove and wash contaminated clothing before re-use.

Ingestion: Rinse mouth with water. Do not induce vomiting. Drink plenty of water. Get medical attention if you feel unwell.

Inhalation: Remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician or Poison Control Center if you feel unwell.

5. FIRE FIGHTING MEASURES

General Hazard: Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action should be taken involving any personal risk or without suitable training.

Extinguishing Media: Use extinguishing measures that are appropriate to local circumstances and the surrounding environment.

Other Considerations: In a fire or if heated, a pressure increase will occur and the container may burst.

Fire Fighting Equipment: As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

6. ACCIDENTAL RELEASE MEASURES

Small Spill: No action should be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch or walk through spilled material. Do not breathe vapor or mist. Provide adequate ventilation. Wear appropriate respirator when ventilation is inadequate, put on appropriate personal protective equipment.

Large Spill: Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via a licensed waste disposal contractor. Contaminated adsorbent material may pose the same hazard as the spilled product.

7. HANDLING & STORAGE

Handling: Ensure adequate ventilation. Wear personal protective equipment as required based on a risk assessment. Do not get in eyes, on skin, or on clothing. Do not breathe vapors or spray mist. Remove and was contaminated clothing before re-use. Wash thoroughly after handling.

Storage: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool, and well-ventilated area, away from incompatible materials and food or drink. Separate from acids. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright

to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION EQUIPMENT

Eyes and Face: If splashes are likely to occur, wear: Tightly fitting safety goggles and face shield.

Skin: Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.

Respiratory: Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Protective Clothing: Wear chemical protective clothing e.g. gloves, aprons, boots. As conditions require.

Work Hygienic Practices: Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.

9. PHYSICAL AND CHEMICAL PROPERTIES

PHYSICAL AND CHEMICAL PROPERTIES	
Physical State	Liquid
Odor	Light Cinnamon
Odor Threshold	No data available
Appearance	Opaque White Liquid
pH	7.5 to 8.5
Flash Point and Method	N/A = Not Applicable
Flammable Limits	N/A = Not Applicable
Autoignition Temperature	N/A = Not Applicable
Vapor Pressure	No data available
Vapor Density	No data available
Freezing Point	<(32°F)
Thermal Decomposition	No data available
Solubility in Water	Complete
Evaporation Rate	Similar to water
Viscosity	No data available

10. STABILITY & REACTIVITY

Stable: Yes

Hazardous Polymerization: No

Stability: Stable under recommended storage conditions.

Polymerization: Hazardous polymerization does not occur.

Conditions to Avoid: None known based on information supplied.

Possibility of Hazardous Reactions: Under normal conditions of storage and use, hazardous reactions will not occur.

Hazardous Decomposition Products: No data available.

Incompatible Materials: Strong oxidizing agents, strong acids. Reducing agents.

11. TOXICOLOGICAL INFORMATION

Eye Effects: No data available.

Skin Effects: No data available.

12. ECOLOGICAL INFORMATION

Environmental Data: The environmental impact of this product has not been fully investigated.

Ecotoxicological Information: None known.

Bioaccumulation / Accumulation: None expected.

13. DISPOSAL CONSIDERATIONS

This material, as supplied, is not a hazardous waste according to federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixing with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements.

14. TRANSPORT INFORMATION

DOT (Department of Transportation)

Other Shipping Information: Not regulated for domestic ground transportation.

15. REGULATORY INFORMATION

United States

Sara Title III (Superfund Amendments and Reauthorization Act)

Fire: No

Pressure Generating: No

Reactivity: No

CHEMICAL NAME	CAS
Water	7732-18-5

Acute: No

Chronic: No

TSCA (Toxic Substance Control Act)

California Proposition 65: This product does not contain any chemicals known to the State of California to cause cancer, birth defects, or any reproductive harm.

NFPA Hazard Codes:

Health: 0 Fire: 0 Reactivity: 0

HMIS rating:

Health: 0 Flammability: 0 Physical Hazard: 0
Personal Protection: B
